Running a successful food business is a combination of hard work, talent and making smart choices. And smart choices are all about utilizing your time and effort efficiently. Hence, we, along with the support of the Masterchefs of ITC hotels, developed a range that offers a smart choice to you.

ITC Master Chef Frozen Food solutions can help expand your business by offering varied winning menu options, highly convenient operations, attractive and predictable pricing and consistent high quality food.

Most of our products are versatile, and allow you to weave your magic to create signature dishes for use as starters or in sandwiches, burgers, rolls/wraps, rice toppings, salad, etc. They are produced in state-of-the-art plants using advanced IQF (Individual Quick Frozen) Technology and the back end sourcing capabilities of our Agri Business (e-Choupal). And of course all of this comes with the assurance of ITC quality. We look forward to working with you to create new offerings and solutions for your daily needs.

European Heritage. Made in India

L.K. Van Leer came to America from Holland, and started the Van Leer Chocolate Corporation, on Christmas Day 1949. Right from the beginning, he was dedicated to being an industry leader. He thrived to make the finest offerings and provide the very best service.

L.K. Van Leer's legacy has lived on ever since and for over 150 years, we have used the finest ingredients to craft a range of high quality Van Leer® compounds.

The Van Leer® brand offers a range of compound products crafted with the finesse, flavours and versatility you need for your creation in bakery, pastry and confectionery offerings, all made in one manufacturing unit, located in India.

You can rely on Van Leer to provide the rich flavor of European heritage made with Indian craftsmanship.

Confectioners, Chocolatiers, master bakers and pastry chefs choose the Van Leer® brand because of its perfect finesse and superior taste and texture.

Van Leer® is a proud brand by Barry Callebaut, the world's leading manufacturer of high-quality chocolate and cocoa.

Add a touch of Dutch Heritage to your creations!

Ebro India

Passionate about Rice & Pasta

Established in 2000, Ebro Foods (a Spanish company) has taken rapid strides and emerged as a behemoth with a turnover of USD 3 billion. With a presence in more than 76 countries, we are the leaders in the rice sector and one of the leading pasta manufacturers. With over 70 brands in rice, pasta and sauces, we've established ourselves as one of the leading global food companies in less than two decades.

Ebro India proudly positions itself as the premier culinary partner, specialising in the artful mastery of pasta and rice products. Our unwavering commitment to ensuring partnerships extend seamlessly to collaborations with restaurants and chef endorsements, placing our emphasis on the pinnacle of pasta excellence. Anchored by our state-of-the-art semolina plant, which meticulously crafts premium pasta raw materials, we ensure quality consistency from the source.

Additionally, our specialised pasta production facility amplifies our capabilities, making us a comprehensive source for top-tier pasta manufacturing. Our packing services, designed with utmost flexibility, offer a diverse array of sizes catering to industrial formats, HoReCa, and small consumer packs for retail. Join Ebro India on a delectable journey where pasta transcends into an immersive experience, creating a cherished place for our brand in the Indian households and the hearts of industry professionals.

We are committed to produce and distribute added-value foods through innovation and operational excellence.

To be one of the leading food companies admired for its brands and its ethics in our industry.

WE MANAGE HIGH QUALITY STANDARDS

Food safety is an integral part of Ebro India's quality management system. It represents our business etiquette and aims to protect consumer health. Our approach to food safety and quality is defined in the food safety and quality management system policy to meet the expectations of the customers.

INTRODUCING

Welcome a new name from the house of Ebro India that will transform the landscape of culinary excellence.

VeroBella is born from a unique production process, where time-honoured Italian techniques meet modern practices. Our commitment to quality and exquisite taste is what makes VeroBella your trusted ally in the kitchen, creating an experience that is unforgettable.

- 1** We select the finest durum wheat in India.

- 8** Our pasta has unique thickness and good water absorption capability which gives higher yield and uniform distribution of ingredients.

- 2** We use only the best semolina made from 100% durum wheat and our pasta has a natural yellow colour.

- 7** We follow a slow drying process to save the nutritive value of our pasta.

- 3** We maintain high-quality checks on our wheat plants throughout the year, ensuring consistent inspection and monitoring.

- 6** Our fully-automated state-of-the-art manufacturing facility produces the best quality pasta which gives good nutritional value and has the best organoleptic characteristics.

- 5** Our pasta remains untouched by hands throughout the manufacturing process.

- 4** We test our pasta for nutritional value, taste, texture, flavour and colour at a cutting-edge R&D&I centre (the 'T' stands for innovation).

VeroBella's State-of-the-Art Semolina Plant

THE HEART OF OUR QUALITY

Our cutting-edge facility combines precision engineering and advanced technology to produce semoling that meets the highest industry standards.

State-of-the-Art Capacity: Fully automatic Bühler plant with a 140 MT/day capacity.

Specialised Design: Exclusively crafted for semolina pasta production.

Advanced Cleaning Operations: Equipped with Bühler Sortex technology for superior wheat cleaning.

Controlled Storage: Atmosphere-controlled silos to preserve the quality of both wheat and semolina.

OUR Production PROCESS

PRE-CLEANING

Removes basic impurities (stones, threads, beads, etc.) before storage. Storage in two wheat silos with a total capacity of 10,000 MT.

CLEANING

Eliminates finer impurities like dust and pebbles. Adjusts moisture with water addition for optimal processing.

DAMPENING

Adds precise moisture to achieve the desired texture for milling.

MILLING

Advanced roll-body machines grind the wheat into semolina with precision, maintaining consistency throughout.

SIFTING & PURIFICATION

Uses plan sifters to separate bran and purifiers for fine separation, ensuring flawless semolina.

STORAGE / TRANSFER & PACKAGING

The final product is seamlessly transferred to our pasta plant's semolina storage via a closed piping system, ensuring hygiene and freshness.

Penne **RIGATE**

Penne, meaning 'pen' or 'quill', is a type of grooved pasta with cylinder-shaped pieces, cut at an angle to give the sauce something to hold on to. Ideal for holding rich tomato or meat sauces, it is used in baked pasta recipes.

KNOW YOUR Pasta

Macaroni **RIGATE**

Macaroni is a hollow, extruded, elbow-shaped pasta, which comes in a variety of sizes and lengths. This versatile variety has a wide range of uses from soups to casseroles and is extremely popular among the youth.

Fusilli

Fusilli is a short-spun pasta with twisted surfaces that provide a chute for the sauce to slide down. Its unique shape helps it grab hold of chunky tomato sauce and bolognese sauce, so you can feel the flavour in every bite.

Spirali

Spirali pasta features tight, elegant twists that perfectly hold onto sauce, allowing for a fuller, richer flavour with every bite. Its unique shape ensures the sauce is evenly distributed, providing a truly satisfying taste.

SEASONINGS

Seasoning is a word that gets thrown around a lot in the world of cooking. Whatever it is, it seems to be the thing that distinguishes the great food from not so great food. It is seen as a varied combination of ingredients like spices, herbs, flavours, salt and much more, which adds value and taste to the food.

We manufacture a wide range of seasoning solutions to match the exact requirements of the customer

SAY CHEESE TO MANUFACTURING EXCELLENCE

Modern Dairies was started in 1992 and over the years has constantly expanded in terms of manufacturing infrastructure, volumes and product lines, to emerge as a leading company in the dairy industry. The manufacturing plant is strategically located at the centre of milk rich belt in Karnal, on G.T. Road, just 136 Kms. from Delhi.

The plant facilities are State of the Art and fully integrated with ultra modern machinery supplied by reputed manufacturers. The company has a strong technical background and operated by a highly competent and motivated team.

The Company's Quality Management System has been certified by DNVGL Netherlands. The Company operations have the distinction of certification for ISO 9001:2015, ISO 14001:2015, Food Safety systems certification i.e. FSSC : 22000 V5.

The Company sells its products like Cheese, Milk & Cultured products and Pure Ghee in retail to consumers through a large distributor's network in different parts of India. Apart from this, most of the leading corporates are having strong relationship with the company and source Milk Powders and Nutritional Ingredients.

The Company has an impeccable track record of export and its products have been approved by major food companies in USA, EU and Middle East & South Asia.

The Company's facilities are approved and registered with USFDA, Export Inspection Agency, HALAL India & APEDA for supply of its products in the international market.
